The open space and the lake itself.

I fish in the Spring and Summer months and walk around the lake all year around. When I fish, I see how much the lake is used by other people for walks and runs. When I have visitors I take them fishing or show them how nice the lake is. We have BBQ's and parties held there also.

Its size and proximity to central Avon. Great place to play.

the lake

Taking a walk and getting fresh air.

The walking path and play ground are out favorite aspects of the park. I walk my daughter up there frequently and let her play.

large size - a lot of people can use it at the same time and it does not feel crowded.

the lake

how pretty it is

The jogging path and playground, and I am looking forward to summer BBQ's.

nothing should be changed except, if possible, have a beach and swimming area

The open space it provides, along with recreational areas for those who which to use it. I also value the park as a hub to the Avon community.

I love being able to roller skate without worrying about trash and debris being all over the sidewalk. I feel safe and welcome. I also enjoy using the park with friends when we just want to sit in the grass and talk.

I would like to see a better stocked lake, full of trout

Like that it's a large green space with a large lake in the middle of town. Also, enjoy movie night during the summer and ice skating in the winter.

Playground and picnic area is very important. The large, public, events such as the 4th of July are also important

The thing I value the most is that the walking paths around the lake are lit and cleared of snow daily. This is a HUGE deal to me, as I run 2 - 3 times a week, often at night -- thank you.

bike path, lake playground, athletic fields

I don't think there is anything that should not be changed if it for the purpose of improving the park.

That the path goes all the way around the lake. I also like the doggie bags and the numerous trashcans - they make walking my dog more convenient. I like that there are very few structures by the park so it looks natural.

The athletic fields and volleyball courts/

Having a park in the middle of town; Being able to ice skate in the winter

rec path, lake for skating, easy close in parking, wide open spaces you can always find a little corner with out being right on top of everyone else.

The children's playground area should not be changed unless it is expanded.

The calming presence of the Lake and being able to walk around it. The Lake should not be removed it should be improved in any way possible. I would like to see more trees and landscaping. Plus, an access path to the Eagle River.

The lake is really special, both summer and winter.

the sidewalk, the lake and the playground

Clean, open space.

I really enjoy the path around the lake

Leave some snow on bike paths for snoeshoeing/xc skiing

I just love having a recreation area in general. It is beautiful down there, a real gathering place for families, and an area to run, bike, or just sit and read a book. Improving parking is necessary.

Open space with the lake.

Lake

The lake and open space around it, as well as the path create a nice experience when walking from the west side of town to the east side of town. Its a nice peaceful place to have lunch.

I value any place where kids can be outdoors and play (playground, soccer, iceskate)

The open space is priceless. The open fields should be left that way. With the heights of the newer buildings, the openness is more valuable and much appreciated.

Being able to walk my dog so close to my home.

Area of open space in Town.

Special community building events - Easter, Movie nights, etc...

Walking around the lake -- we appreciate it when the path is free of ice and snow

Nice open green areas, views of water and also mountains. Great for kids to run and play on playground.

The athletic fields and the lake. But wish everything was bigger.

the lake and the walking path around it; the views

The only things that i think should change are ;We need a leash free area for the dogs and the police should NOT be allowed to drive their cars on the bike/walking path.

"-place to walk or jog away from traffic"

"Open space within an urbanized area."

"Open space, lake, playground"

"The extent of the recreation paths"

Every town needs open space & 'play' areas. I love that it is free to the public."

"Volley ball courts. I like that it blends in w/ the backyards of condo complexes so it feels like a community/somewhat of a neighborhood. Also, the low lighting so as not to disturb those living on the lake."

"4th of July events, kickball league bolleyball courts, quietness for reading a book by the lake"

"The lake the bike path"

"Open space lake- peaceful (most of the time!) public spot Thanks to the local police for keeping it safe at 4th of July event."
